

A JOURNEY *through ten phases*

This workbook is structured into 10 distinct phases, each designed to guide you step-by-step through the process of self-discovery, personal growth, and the art of manifestation. Each phase builds upon the previous one, creating a comprehensive framework that will support you in achieving your goals.

How to use this workbook

This workbook is designed to be interactive. Each phase includes exercises, reflective prompts, and practical activities that will help you integrate the concepts into your daily life. Take your time with each phase, and allow yourself to fully engage with the material. Remember, personal growth and manifestation is a journey, not a destination.

01

Set aside a specific time when you are free to use the workbook every day. Make sure you are calm and in a peaceful spot once you begin.

02

Strive to complete one worksheet daily. If you find that you need to elaborate further, include a blank sheet to expand on your thoughts and feelings.

03

If you encounter something triggering, take a moment to sit and acknowledge your emotions. Allow yourself to go through this process naturally. The key is to comprehend your inner self, elevate your energy, and manifest positively.

I MISSED *a day*

So what happens if you miss a day? Absolutely nothing. It's important to let go of what has already happened. It's not a big deal! We all need to take a breather sometimes. Allow room for flexibility and practice self-compassion. This workbook aspires to work with you and help you, not hurt you. Do not beat yourself for not being able to commit for a while.

This workbook is not going anywhere! It will always be with you to restart your journey. Journaling, self-development, and manifestation are all activities aimed at supporting and empowering you, not penalizing you.

- ♥ Use your missed day as a day of rest.
- ♥ Do an extra page once you resume (if you like).
- ♥ Do not beat yourself up about it, instead look forward to what is ahead.
- ♥ Set an alarm every day for your dedicated time.

A Promise To Myself

I _____ hereby agree that I will not be hard on myself if I miss a day's entry. I will try my best to pick up where I left off.

FACING FEARS & LIMITING BELIEFS

Facing fears and limiting beliefs is a critical aspect of the manifestation process. These internal barriers can significantly hinder your ability to manifest your desires if not addressed.

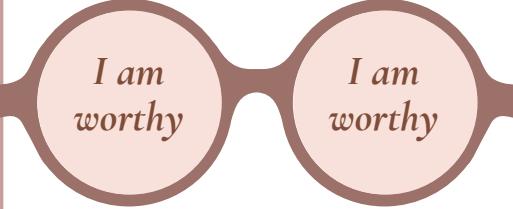

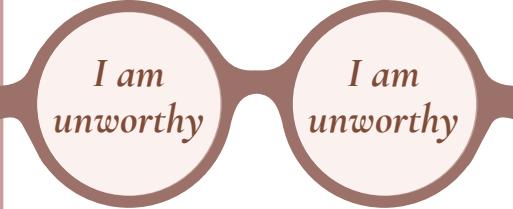

FOUR

C O R E B E L I E F S

and limiting beliefs

Everyone experiences life differently. Two people experiencing the same situation will process it extremely differently. Think of core beliefs like a pair of sunglasses. Everyone sees differently depending on the shade of your glasses.

Situation	Core Belief	Consequences
You start a new business and think of looking for investors		Thought- "Why would they invest in my biz?" Behaviour- Never looks for investors.
		Thought- "I believe in my business!" Behaviour- Looks for investors proactively

To start challenging your negative core beliefs, you first need to identify what these beliefs are. Some common examples are:

I am unworthy

I am powerless

I am a failure

I am alone

I am defective

I am weak

I am a burden

I am different

I am unlovable

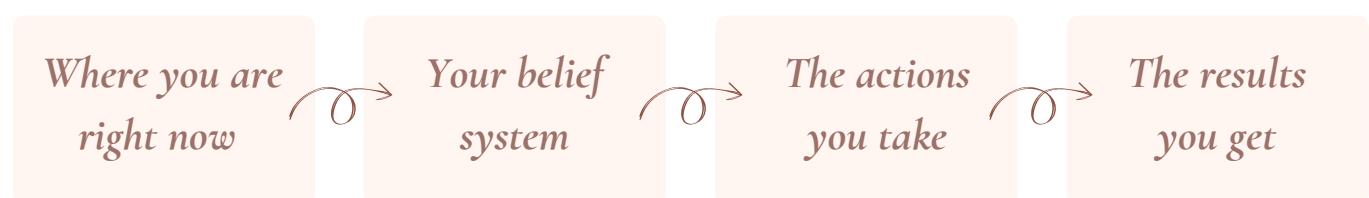

What is one of your negative core beliefs?

List a piece of evidence contrary to your negative core belief.

LIMITING

beliefs

Limiting beliefs are beliefs that constrain or restrict you in some way. They are often deeply ingrained and may be based on past experiences, societal conditioning, or negative self-perceptions. Limiting beliefs can hold you back from reaching your full potential and can impact various areas of your life, including relationships, career, and personal development.

What beliefs are holding me back?

How are my beliefs different from my friends and family?

Are these beliefs true? If yes, are these harmful?

What are some better and more productive beliefs?

IDENTIFY

fear and doubt

To identify your fears and doubts, start by reflecting on situations, goals, or decisions that make you feel anxious or uncertain. Write down specific scenarios or areas of your life where you experience fear or doubt. Next, consider the following questions to delve deeper into these feelings:

Do I really believe I am worthy of it?

Do I really trust I would be able to handle it?

Do I really believe it's possible for me?

What insecurities do I have surrounding this?

What limiting beliefs are holding me back?

DECATASTROPHIZING

worksheet

Anxiety is extremely hard to live with because you constantly assume the worst that is going to happen. This can lead to thinking and acting irrationally. Use this worksheet to understand and get to the root of why you feel like this and combat it!

What are the 3 things that will happen before the worst happens?

PUTTING THOUGHTS

on trial

The "Putting Thoughts on Trial" worksheet is a practical tool that can be used to challenge negative thinking patterns and promote mental well-being. It is often used in conjunction with other CBT techniques as part of a comprehensive treatment plan for conditions such as anxiety, depression, and stress.

Prosecution & Defence: Gather evidence in support of, and against your thought. Evidence can only be used if it's a verifiable fact.

Judge: Come to a verdict regarding your thoughts. Is the thought accurate and fair? Are there other thoughts that can explain the facts?

releasing limiting beliefs

Write down something that is holding you back in life, something that you are constantly judging yourself for. Write about the experience you feel shame, guilt or anger around.

Now write a letter to your past self. Offer yourself compassion and kindness. Forgive yourself and understand whether your actions were rooted in pain or insecurity.

MY COPING

mantra

When we constantly think about our negative beliefs, we make it automatic. These automatic beliefs get reinforced and make us spiral into our negative thoughts. It's important to catch ourselves and try to replace negative words with positive words. Using these language swaps, create your own mantra! Here are some examples of language swaps that can be used:

Low vibe/self-esteem

I can't do it

I will never succeed

I don't know how

I am not good enough

It won't work out

High vibe/self-esteem

I can do anything I put my mind to

I will give my 100% & that is enough

I will learn, understand & ask for help

I can do anything I put my mind to

Everything will work out for me

Using positive words, draft your mantra! Read this mantra every morning after waking up and just before going to sleep. Bless yourself!

Example: I am a powerful soul. Whatever I choose, I'm able to do it. I have limitless potential. I am grateful for all that I have. My every thought is a beautiful blessing. I am calm & at peace.

My Mantra:

OVERCOMING

self criticism

Forgive the past

Understand that they were driven by their own insecurities, struggling with their own demons. They weren't right in what they did, but, you can try to understand them nonetheless. Forgive them so that you can heal.

Who are the people that criticised you in the past that you would like to forgive?

Accept all of yourself

Write down things that you do not like about yourself and see as imperfections or weaknesses. Write down how you will accept them and love them as they are.

What I like and love about myself...

I am going to love and accept that...

Use the technique of visualization to manifest your monthly income goal. Follow the instructions below:

Write the exact monthly income you're looking to manifest and write it down below. Make sure the amount you decide doesn't challenge you and feels attainable for you. The aim is to not allow your mind to challenge you. Start with a number that feels comfortable for now and work your way up. method

The mirror technique is a potent method for drawing in wealth, health, relationships, and abundance. It operates on the principle that our energy is mirrored back to us when we gaze at our reflection. By looking at ourselves in the mirror, we are essentially observing our own energy, not just a physical image. Our emotions play a crucial role in this process: positive feelings attract positive outcomes, while negative emotions draw negative circumstances.

01

Stand in front of the mirror and look yourself in the eyes. Take a few deep breaths to center yourself.

02

While looking at yourself in the mirror, affirm your desires as if they have already manifested.

Raising your vibration is a concept often associated with spiritual and holistic practices. It refers to elevating your emotional, mental, and spiritual state to align with higher frequencies or energies. The idea is that everything in the universe is made up of energy, including our thoughts, emotions, and actions, and these energies can be measured in terms of their vibrational frequency. Remember, raising your vibration is a personal journey, and what works for one person may not work for another. It's about finding practices that resonate with you and support your well-being. SCRIPTING

My destiny - Checklist

Scripting is a manifestation technique where you write down your desires and goals as if they have already happened. The idea behind scripting is to create a detailed and vivid description of your desired reality, which can help you align your thoughts, beliefs, and emotions with your goals. In the next part of this worksheet, create your script!

Set Your Intention

Begin by setting clear intentions for what you want to manifest. Be specific about your desires and the outcomes you wish to achieve.

Write in the Present Tense

Write your script as if your goals have already been accomplished. For example, instead of saying "I will be successful," say "I am successful."

Visualize While Writing

As you write, visualize yourself living your desired reality. Imagine how it feels to have achieved your goals.

Express Gratitude

End your script with gratitude for the manifestation of your desires. This helps reinforce a positive mindset and aligns your energy with abundance.

SCRIPTING

method

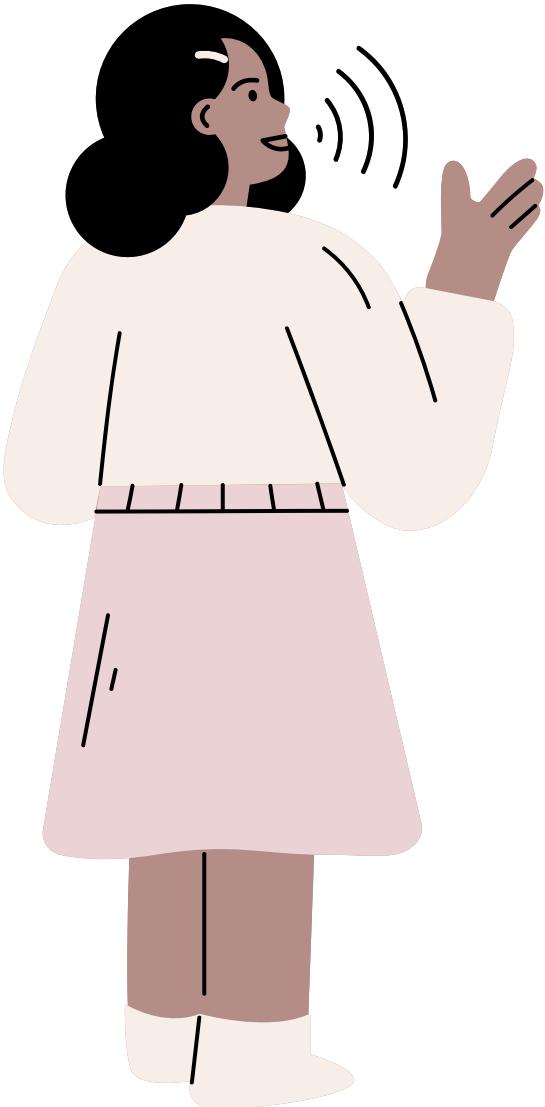

The Whispering Technique of Manifestation, is a manifestation method that involves softly whispering your desires to the universe. This technique is based on the idea that whispering your intentions can help you focus your thoughts and energy, and send a powerful message to the universe.

Setting my intention for this practice

Enter a meditative state

Prepare for the whispering step by calming your mind and body and maintaining your attention on the task at hand. Sit or lay comfortably, close your eyes, and concentrate on your breathing. Let thoughts and judgements pass peacefully, don't ponder!

Whisper & visualise your manifestation

Close your eyes and softly whisper your desires to the universe. Speak as if you are having a conversation with the universe, expressing your desires with sincerity and clarity. Visualise while you whisper it!

End this practice with gratitude & an open mind.

LETTER TO *the universe*

KNOT

method

The knot method of manifestation is a technique that combines elements of intention setting, visualization, and symbolic action to manifest desired outcomes. It involves tying knots in a string or cord while focusing on specific intentions or goals. Here's a step-by-step guide on how to use this method:

Knot Technique

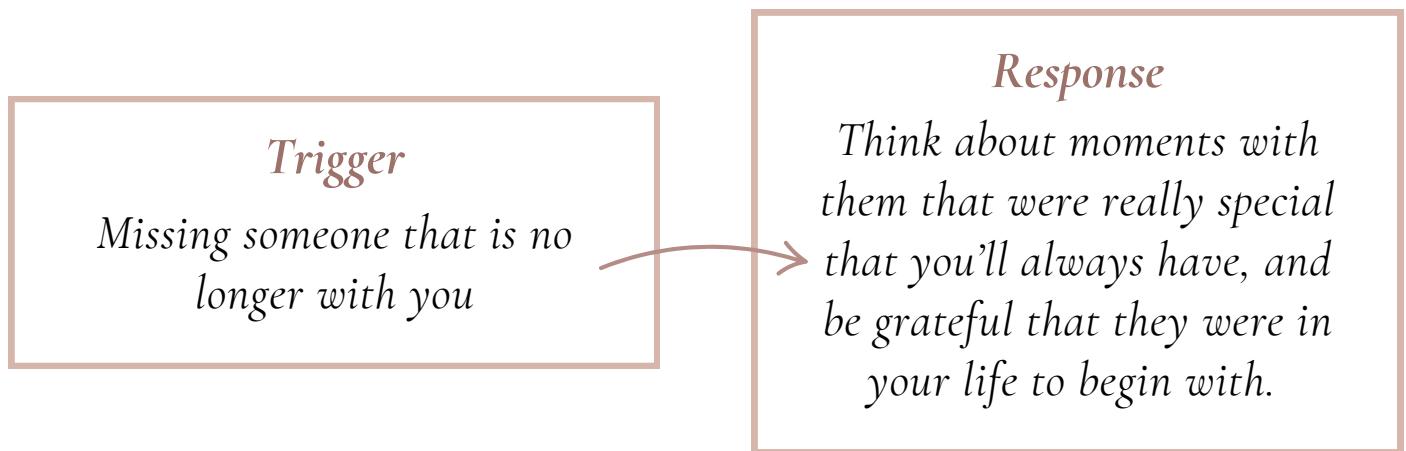

- 01 Choose a symbolic long string, cord, or thread based on its length and color to reflect your intentions.
- 02 Clearly define what you want to manifest. Be specific and positive in your phrasing.
- 03 Hold the string in your hands and close your eyes. Visualize your desired outcome as if it has already happened.
- 04 As you tie each knot, focus on a specific aspect of your intention. You can say an affirmation or a positive statement related to your goal while tying each knot. For example, if you are tying seven knots for prosperity, you might say, "I am attracting abundance into my life" with each knot.
- 04 Keep the string in a place where you will see it regularly. It can serve as a reminder of your intentions and help maintain your focus on manifesting your goals.

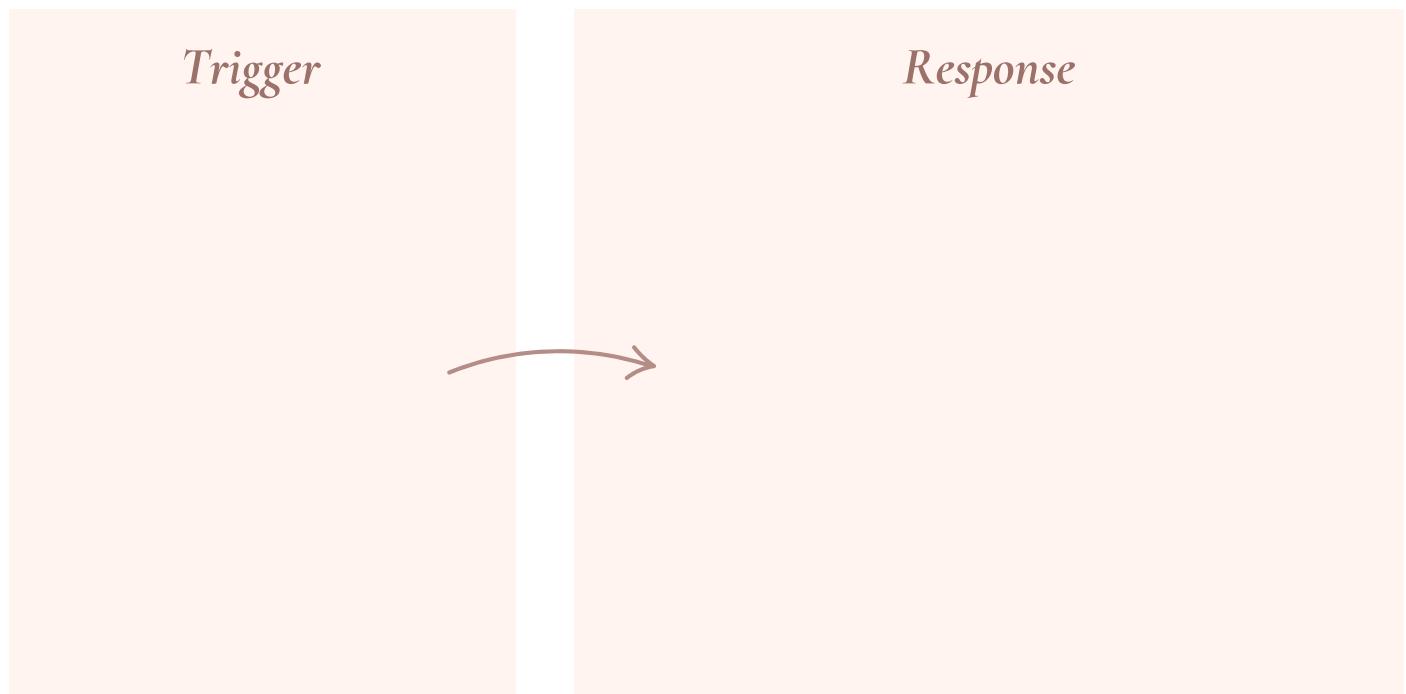

DISCOUNT TRIGGER

method

We all go through some tough times and situations in our life. However, we have the power to choose how we perceive a situation. Small tweaks in the way we respond to situations can make a tremendous difference to how good and positive we feel in life. No matter what the situation is, take a “negative” moment and instantly shift it into a positive opportunity to feel good and invite wonderful things into your life.

In the section below, mention something that is bothering you and choose to find a positive attitude of gratitude from it.

BLITZ JAR

method

Practicing Gratitude Blitzing is a wonderful and uplifting method to elevate your energy, enhance your mood, and draw positive things towards you. The Blitz Method involves continuously listing numerous things you are thankful for without pausing. Share all the things and experiences you appreciate in the images below, and remember to express gratitude to the universe or a higher power for all the blessings at the end.

TURNING ENVY INTO INSPIRATION

Turning envy into inspiration plays a crucial role in the manifestation process by transforming negative emotions into a positive driving force that can propel you towards your goals.

F I G H T

EXPLORING

Envy

It is so important to understand what triggers envy. Envy is that sinking feeling in the pit of your stomach when you compare yourself or your life with others. In the worksheet below, try to identify your triggers.

Reflect on situations, experiences, or qualities in others that trigger feelings of envy within you. Write down at least three triggers below:

- 1 _____
- 2 _____
- 3 _____

Consider why each trigger evokes envy. Is it because you desire something similar for yourself, or does it highlight insecurities or unmet needs? Write down your thoughts and reflections for each trigger:

UNDERSTANDING

your envy

Envy

Envy is a feeling of discontent or resentment aroused by someone else's possessions, qualities, or achievements, and a desire to have those possessions, qualities, or achievements for oneself.

Inspiration

The opposite of envy is inspiration. Inspiration fuels creativity and motivation, sourced externally or internally, driving individuals to pursue passions overcome challenges, and achieve goals.

Every time we feel envy, we have an opportunity to turn it into inspiration. In this worksheet, mention a few instances you've felt envy and write an inspiring thought beside it.

PHASE E

Phase Nine TRUST & SURRENDER

Trust and surrender play essential roles in the manifestation process, helping individuals align their intentions with the universe and allowing their desires to manifest more effortlessly.

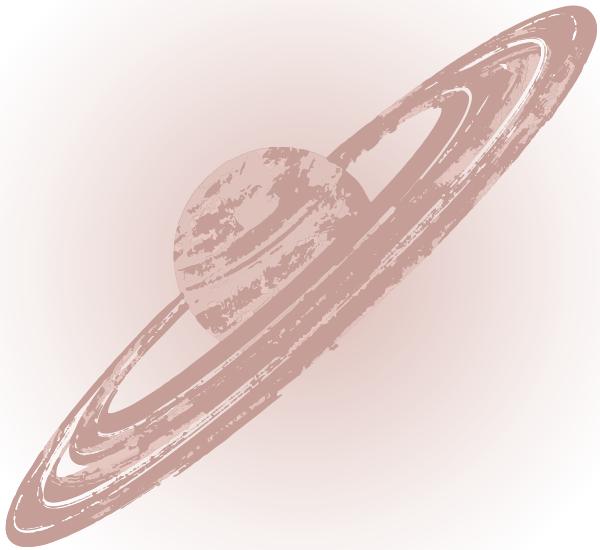

NINE

TRUST &

let go

“
Surrender to the divine timing of your life. Trust in the plan of the universe.
 ”

Surrendering to the universe and trusting its guidance is crucial to our personal growth, fulfillment, and alignment with our highest potential.

1 Letting Go of Control:

Surrendering to the universe involves releasing our need to control every aspect of our lives. It means acknowledging that there are forces beyond our understanding and trusting that everything is unfolding as it should, even if it doesn't match our expectations. By surrendering control, we open ourselves up to new possibilities and opportunities that we may not have considered otherwise.

2 Embracing Flow and Flexibility:

When we trust the universe, we learn to flow with the natural rhythms of life. We become more adaptable and resilient in the face of change, understanding that challenges are often opportunities in disguise. Trusting the universe allows us to navigate life's ups and downs with greater ease and grace, knowing that we are supported by a higher intelligence.

3 Finding Inner Peace:

Surrendering to the universe brings a sense of inner peace and serenity. It frees us from the burden of worry, anxiety, and fear, as we relinquish the need to constantly struggle and strive for control. Trusting in the universe's wisdom allows us to cultivate a deep sense of faith and acceptance, knowing that we are held and supported by something greater than ourselves.

4 Aligning with Divine Timing:

Trusting the universe means surrendering to divine timing. It involves having faith that everything is unfolding according to a higher plan, even if we can't see the bigger picture in the present moment. By trusting in divine timing, we learn to be patient and to trust that things will unfold in the right way and at the right time.

Manifesting With Ease

Surrendering to the universe and trusting its guidance can enhance our manifestation abilities. When we release resistance and align ourselves with the flow of abundance, we become more receptive to the blessings and opportunities that come our way. Trusting in the universe's support can help us manifest our desires more easily and efficiently. Emotionally detach yourself from whatever you think will be the result or outcome. It's time to embrace equanimity and enjoy the process. Use all the manifestation techniques in this workbook with pure intentions and thoughts. Never force yourself to go through this process and just let it flow.

Manifesting is all about surrender. It is about knowing and visualizing what you want, being proactive in reaching it but then surrendering to the journey that will ultimately guide you there.

UNDERSTANDING

trust and surrender

Isn't it so fascinating that once you let go of control and resistance, your most valuable manifestations come to life? So many times we get what we "want" only after we completely give up and stop caring if we get it. However, it's important to understand that:

Letting go ≠ Giving up

Consider how trust and surrender play a role in the process of manifestation. What do these concepts mean to you in the context of manifesting your desires? Write down your reflections:

Define what trust and surrender look like when applied to manifestation. How do you trust in the universe's ability to deliver your desires, and how do you surrender control to allow manifestation to unfold naturally? Write down your definitions:

PHASE

190

Phase Ten

TRUST & LETTING GO

Trusting the universe is a powerful concept rooted in the belief that there is a higher intelligence or cosmic order guiding our lives. It involves having faith in the process of life unfolding in its own time and according to a greater plan.

TEN

TRUST THE Universe

“The mind is everything. What you think you become.”

Trust is a crucial component of successful manifestation. When you set your intentions and take inspired actions, you are co-creating with the universe. Trusting the process means believing that the universe is working behind the scenes to bring your desires to fruition.

Believing in the Unseen

Manifestation involves faith in the unseen. Trusting the universe means believing that your desires are being worked on, even when you can't see immediate results.

Detachment from Outcomes

Becoming overly attached to specific outcomes can create resistance. Trusting the universe involves detaching from the "how" and "when" and allowing things to unfold naturally.

*Congratulations on starting this
beautiful journey.*

We attract who we are. The universe responds to our vibration- who we are at our core! Your thoughts and actions raise your vibration. The entire point of this workbook is to work through our thoughts and who we are as people. The concept of manifestation is so deeply rooted in psychology and subconscious reprogramming.

LETTING GO

of control

One of the biggest challenges in manifestation is letting go of the need to control every aspect of the process. Here are some ways to practice letting go:

01

Mindfulness and Meditation

Regular mindfulness practices can help you stay present and reduce the urge to control.

02

Affirmations

Use affirmations to reinforce your trust in the universe. Examples include, "I trust that everything is unfolding perfectly for me," or "I release control and allow the universe to guide me."

03

Gratitude

Focus on what you already have and express gratitude daily. This shifts your energy from lack to abundance, helping you trust that more good things are on their way.

Recognising the signs

The universe often communicates with us through signs and synchronicities. Being open to these signs can reinforce your trust in the process.

HOW TO DO

a body scan

The body scan is a mindfulness meditation practice involving scanning your body for pain, tension, or anything out of the ordinary. It can help you feel more connected to your physical and emotional self. In the figure below, mark any areas that you feel pain or discomfort in.

- 01 Lie down or sit in a position that allows you to stretch your limbs easily
- 02 Close your eyes and begin focusing on your breath
- 03 Begin anywhere you like focus on that spot as you continue breathing
- 04 Open your awareness to sensations of pain, tension or discomfort.
- 05 Slowly release your mental awareness of that specific part & redirect it to the next
- 06 Continue the exercise along your body in a way that makes sense to you
- 07 Once you finish scanning parts of your body, let your awareness travel
- 08 Slowly release your focus and bring your attention back to your surroundings.

UNIVERSAL LAWS

of manifestation

Manifestation is often discussed within the framework of several universal laws that are believed to govern the process of attracting and creating the reality you desire. Here are some key laws related to manifestation:

01

Law of Attraction

Principle

Like attracts like. Your thoughts, emotions, and beliefs attract corresponding experiences into your life.

Application

Focus on positive thoughts and feelings to attract positive experiences. Visualize your desires as if they have already been achieved.

Example

Thinking positively about wealth and abundance makes you more likely to attract financial prosperity.

02

Law of Vibration

Principle

Everything in the universe is in constant motion and vibrates at a specific frequency. Your vibration attracts experiences that match your frequency.

Application

Raise your vibration through positive thoughts, feelings, and actions. Engage in activities that make you feel joyful and fulfilled.

Example

Practicing gratitude and self-love can raise your vibration, attracting more positive experiences.

03

Law of Action

Principle

Manifestation requires positive thinking and taking inspired and consistent action toward your goals.

Application

Set clear goals and take steps, no matter how small, towards achieving them. Act on opportunities that align with your desires.

Example

If you want to start a new career, begin by researching the field, networking, and acquiring the necessary skills.

04

Law of Correspondence

Principle

As above, so below; as within, so without. Your external reality mirrors your internal state.

Application

Cultivate a positive internal environment. Work on your mindset, beliefs, and emotional health to reflect desired changes in your external life.

Example

Inner peace and self-acceptance can lead to harmonious relationships and a more peaceful external environment.

05

Law of Cause and Effect (Karma)

Principle

Every action has a corresponding reaction. Your actions, whether positive or negative, create consequences.

Application

Act with intention and integrity. Be mindful of the energy and actions you put out into the world.

Example

Acts of kindness and generosity can lead to positive returns in various aspects of your life.

06

*Law of Compensation**Principle*

Application

Provide value in your actions and contributions. Trust that you will be compensated in proportion to your efforts.

Example

Diligent work and providing exceptional service can lead to career advancements and financial rewards.

07

*Law of Perpetual Transmutation of Energy**Principle*

Energy is constantly evolving and transmuting from one form to another. Higher vibrations can transform lower vibrations.

Application

Use positive energy to overcome negative situations. Focus on transforming challenges into opportunities for growth.

Example

Using positive affirmations and visualization to shift a negative mindset into a positive one.

08

Law of Relativity

Principle

Everything is relative and can be seen in relation to something else. Your perspective shapes your experience.

Application

Reframe challenges as opportunities for growth. Compare your progress to your past self rather than others.

Example

Viewing a setback as a learning experience rather than a failure.

09

Law of Polarity

Principle

Everything has an opposite. Understanding this helps you see the positive in negative situations.

Application

Recognize and embrace the duality in life. Use negative experiences as a contrast to appreciate positive ones.

Example

Experiencing failure can make success feel more rewarding and valuable.

10

Law of Rhythm

Principle

Life is cyclical, and everything has a rhythm or pattern. There are natural ups and downs.

Application

Trust the process and stay resilient during challenging times. Understand that difficult phases are temporary and part of the natural cycle.

Example

Staying optimistic and persistent during a career downturn, knowing that it is part of a larger cycle.

11

*Law of Gender**Principle*

Everything has masculine and feminine energies, which are essential for creation and balance.

Application

Balance your masculine (action, logic) and feminine (intuition, nurturing) energies. Use both to manifest your desires effectively.

Example

Combining strategic planning (masculine) with creativity and intuition (feminine) in pursuing your goals.

By understanding and applying these laws, you can enhance your manifestation practice and create a life that aligns with your deepest desires and highest potential.
